PROFITS DOWN TO THE PENNY

How? [Magic](#)

It's simple,

I'm stacking the odds in your favor using the art of [Bookkeeping](#).

I use organization, the best software and continuous education to maintain order in your business.

Through my process of [Bookkeeping Magic](#) you can be sure the cards are stacked in your favor.

THE EXCITEMENT OF BUSINESS

I'm sure we all have the same assumption that when the time comes "I'll figure it out"

Are you thinking it will be easy enough to...

- Create a profit and loss statement?
- Create drives and folders that can be sent to your CPA next quarter?
- Complete accounts payable and receivable?
- Manage payroll and tax information for your employees?

"It helps to have like-minded individuals who genuinely want to help you achieve your goals."

So, why is this not your reality?

Well, you are supposed to run your business. Get clients, advertise and manage your staff.

You know? Business person stuff!

You didn't start a side hustle as a Bookkeeper. You weren't meant to sit and sift through documents, spreadsheets and endless numbers.

How many hours on your nights and weekends are spent trying to prepare for tax season? Gathering receipts, finding employee information, trying to organize transaction types, and the constant thought of...

“Did I do this right?”

If you used Bookkeeping Magic, then of course!

Everything is in order, organized and your financial statements are reported Down to the Penny.

SO, WHAT IS BOOKKEEPING MAGIC?

A process of transforming chaos into order.

Through...

- Familiar Tech
- Order
- Detail
- Organization
- Time Management
- Strict Deadline Adherence
- And a Never Quit attitude

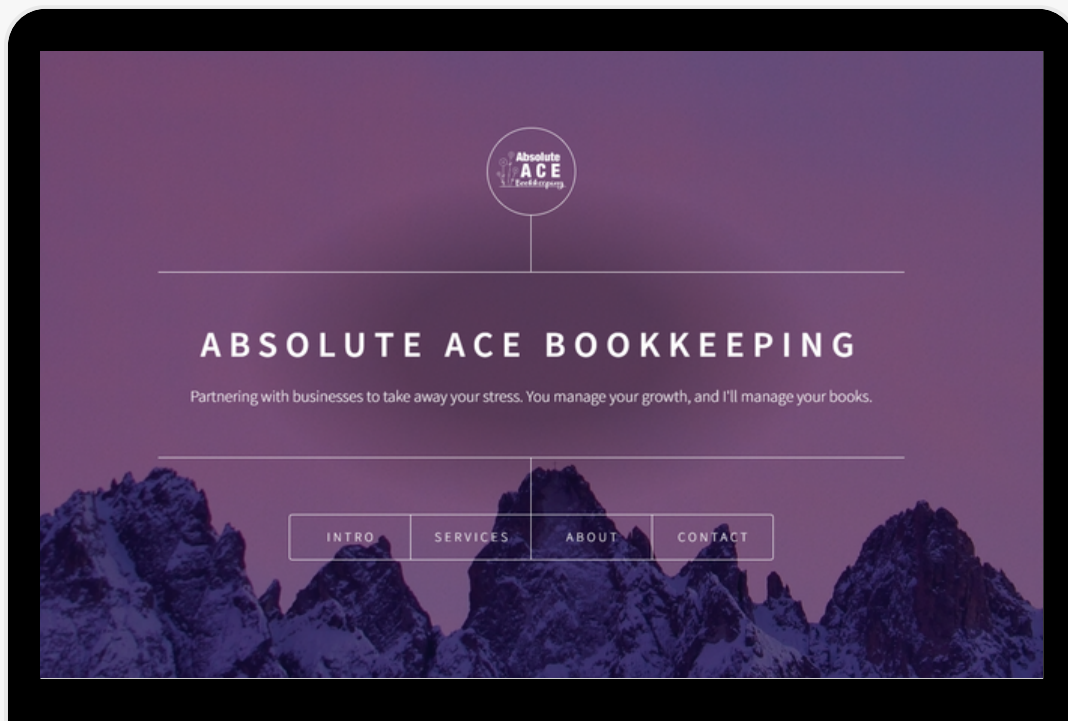

My goal is to help you align your finances and maintain order in your business. My services are a tool to help you achieve your goals in having more Time and more Money!

AS A BUSINESS OWNER THINGS CAN GET SCARY

Sometimes that next step feels like you're jumping off a cloud. But, if you have the proper foundation it's a **whole lot easier**.

Maybe you are wanting more streams of income or maybe you dream of scaling your business. Either way you know you have someone to organize it and get your finances in order.

Through my current client experience and continuous desire to grow professionally, I intend to provide the best service for your business and **ensure every penny is accounted for**.

Hi, I'm Stephanie the Owner of Absolute Ace Bookkeeping. I'm a full-time Mother of Four, a full-time Homemaker and full-time Bookkeeper. Yes, Again, Magic!

I'm a Mother of Four Children and they have taught me many things but one of those is accountability. They taught me accountability when I realized they depend on me solely to survive and grow.

In the beginning, I was full of anxiety and stress because I wanted to make sure I had everything right. Everything needed to be baby proofed, and I had to ensure I had enough supplies to last the apocalypse.

Here's the crazy part, after four children you get pretty used to the drill. Those anxious and stressful feelings become comfortable. Because as my grandmother says "When you have kids you never sleep another night the same"

So I got used to it, BUT

THOSE SAME FEELINGS OF STRESS AND ANXIETY CAME BACK WHEN I STARTED ABSOLUTE ACE BOOKKEEPING.

I wanted to make sure I had everything in order. EVERYTHING. I wanted to...

- Ensure my clients success
- Ensure i knew what i was doing
- Ensure i was bringing value
- And making sure i had all my legal paperwork and docs in order

I could go on and tell you how I solved all those but long story short. I was successful.

I'm sharing that about myself to show you I have an understanding of the Emotions, Feelings and that unexplained sensation of continuing forward as a business owner.

Since my line of work involves business owners in all sorts of financial conditions.

I've seen some stellar ones and some not so stellar conditions...

The not so stellar condition businesses are typically strung out, tired and feel overworked. This is no way to financial freedom, just more neglect in other areas of your life and more work.

I know there are business owners struggling with that same scenario, but the mindset is what needs to be shifted.

It took some serious work and brain calories over a long period of time for you to get to this point. You now have to spend extra hours weekly doing more to maintain financial health.

That's because your business has grown! You have more clients, higher sales, more employees, and **MORE MONEY!**

You've become so successful that you need to outsource your financial maintenance. Congratulations!

You've taken

- Payroll
- Tax Prep
- Reconciling Accounts
- Profit and Loss reports
- Financial statements
